AUTISM & SPECIAL NEEDS

Nearly every toy in our catalog has an Autism Symbol that corresponds with the specific learning the toy supports. Use the following key to choose an appropriate toy for your child.

a. Toys to develop independent play with some limited instruction.  
b. Toys that promote sustained engagement.  
c. Toys that build skills for cooperative play.  
d. Toys that create opportunities for kids to talk about their play experience.  
e. Toys with obvious completion criteria.  
f. Toys that encourage pretend play.

There are very specific opportunities in child development. When you match the right toy with the right age and skill category, you’re giving your child an invaluable head start in the learning process. These are the learning moments, and making them happen is what Discovery Toys is all about.

I joined DT 38 years ago. It was a “WOW” for me and I knew that learning through play was important. I have earned over 30 incentive trips and sold over $600,000 in my career and the “WOW” is still there. I couldn’t be happier to be a part of the Discovery Toys family!
