The Iowa Conference on Communicative Disorders provides continuing education activities in speech-language pathology that are acceptable to the State of Iowa and the American Speech-Language-Hearing Association. Areas of emphasis include adults and pediatrics.

The Iowa Conference on Communicative Disorders is a student run conference for professionals. The conference is in its 27th year.

The conference co-chairs are Hannah Brummel and Karlee Peyton, and Suzanne Dripps is the conference advisor.

The Iowa Speech-Language-Hearing Association is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course is offered for variable credit up to 1.85 ASHA CEUs (Various levels; Professional area).

LONI ARRESE / PhD, CCC-SLP
Loni Arrese, PhD, CCC-SLP is an Assistant Professor in the Department of Otolaryngology, College of Medicine and the Department of Speech and Hearing Sciences at The Ohio State University. Dr. Arrese is the Director of the Cancer-Induced Dysphagia Laboratory where she and her team aim to improve patient care by establishing physiologically guided interventions for dysphagia management as well as identify objective markers for recognizing individuals at risk for long-term functional deficits following head and neck cancer treatment. Her specific research interests include assessment and identification of the underlying impaired governing mechanisms contributing to swallowing impairment in individuals with head and neck including the coordination between respiration and swallowing. Dr. Arrese has grant funding from Pelotonia to support this work.

LISA M. KOPF / PhD, CCC-SLP
Lisa M. Kopf, PhD, CCC-SLP is an assistant professor in the Department of Communication Sciences and Disorders (CSD) at the University of Northern Iowa. She received her PhD from Michigan State University in CSD, as well as a Certificate of Serious Game Design. Dr. Kopf’s primary research interest is in the application of user-centered design and serious game design principles to the prevention and treatment of voice disorders.

JANE R. WEGNER / PhD, CCC-SLP
Dr. Wegner is a Clinical Professor in the Intercampus Program in Communicative Disorders at the University of Kansas. She is the Director of the Schiefelbusch Speech-Language-Hearing Clinic and the Pardee Augmentative and Alternative Communication Resource and Research Laboratory. Dr. Wegner’s clinical and research interests include augmentative and alternative communication, general education curricular access for students with complex communication needs, and service delivery models for school speech-language services. She has directed personnel preparation projects funded by the U.S. Department of Education, Office of Special Education Programs including the Communication and Autism Project; the Communication, Autism, and Technology Project; the Augmentative Communication in Schools Project, and the Augmentative Communication in the Schools-Kansas City Project. Dr. Wegner is an ASHA Fellow and serves on ASHA’s Speech-Language Advisory council.

JERRY K. HOEPNER / PhD, CCC-SLP
Dr. Jerry Hoepner is an Associate Professor at the University of Wisconsin–Eau Claire. He teaches coursework in adult neurogenics, including Anatomy & Physiology, Neuroanatomy & Physiology, Aphasia, Acquired Cognitive Disorders, Dysphagia, and Counseling. He is a founding editor and editor-at-large of the Teaching and Learning in Communication Sciences and Disorders (TLCSD) journal. Jerry’s teaching research focuses on non-course based learning opportunities (e.g., immersion learning, undergraduate research, course-embedded clinical experiences), pedagogy, and training CSD students as educators. This research has been published in a variety of journals, including: the Journal of Scholarship of Teaching and Learning, Journal of Teaching and Learning with Technology, and Council of Undergraduate Research Quarterly. He also remains active in clinical research, including student and camper outcomes at the Chippewa Valley Aphasia Camp, social networking applications for individuals with aphasia, Video Self-Modeling interventions for individuals with acquired cognitive disorders, and communication partner training. This research has been published in a variety of journals Brain Injury, Aphasiology, and the Journal of Interactional Research in Communication Sciences and Disorders. In addition, Dr. Hoepner has published several chapters in edited texts. Jerry remains active in community programming for individuals living with traumatic brain injuries and those living with aphasia, including being a co-founder of the Chippewa Valley Aphasia Group, Chippewa Valley Aphasia Camp, Blugold Brain Injury Group, and Mayo Mild Brain Injury Group.

LONI ARRESE / PhD, CCC-SLP
Loni Arrese, PhD, CCC-SLP is an Assistant Professor in the Department of Otolaryngology, College of Medicine and the Department of Speech and Hearing Sciences at The Ohio State University. Dr. Arrese is the Director of the Cancer-Induced Dysphagia Laboratory where she and her team aim to improve patient care by establishing physiologically guided interventions for dysphagia management as well as identify objective markers for recognizing individuals at risk for long-term functional deficits following head and neck cancer treatment. Her specific research interests include assessment and identification of the underlying impaired governing mechanisms contributing to swallowing impairment in individuals with head and neck including the coordination between respiration and swallowing. Dr. Arrese has grant funding from Pelotonia to support this work.
EMILY DIEHM / PhD, CCC-SLP
Emily Diehm, PhD, CCC-SLP is an Assistant Professor at the University of Toledo in Toledo, OH. She earned her BA in Speech and Hearing Science from The University of Iowa. She received her Master's and PhD in Communication Science and Disorders from Florida State University. Dr. Diehm teaches graduate and undergraduate classes on oral and written language development, as well as developmental language disorders. Dr. Diehm's clinical and research interests include intervention approaches for young children who are at-risk for later literacy disorders due to language impairment or low-socioeconomic background, as well as how to enhance educators' abilities to make evidence-based decisions.

LAKEISHA JOHNSON / PhD, CCC-SLP
Dr. Lakeisha Johnson is a research scientist at Georgia State University in the Urban Child Study Center. She is also a part-time instructor within the Communication Sciences and Disorders department and certified speech-language pathologist. Her research interests include language, literacy, and executive functioning development in African American children and other at-risk populations.
